

# Heading 0

There can only be one level-0 heading in a doc when the document type is set to *article*. If the document type is set to *book*, there can be multiple level-0 headings.

*article* is the default document type.

## Heading 1

## Heading 1

By default, a horizontal rule separates consecutive level-1 headings.

## Heading 2

Even if there are lower-level headings between the level-1 headings.

## Heading 1

See?

### NOTE

In GitHub, the rule renders below the heading.

In the VS Code AsciiDoctor preview, this horizontal rule renders above the heading.
